

# Hudson

*Providing  
IT staffing  
solutions to  
Commerce &  
Industry*

## ABOUT US

Hudson's Commerce & Industry IT division is a niche strategic resourcer for IT departments. Covering critical areas of IT, our focus is on recruiting mid to senior level appointments, both contract and permanent.

With over 25 years experience in providing IT recruitment solutions throughout the UK and across the globe, our focus is on quality not quantity. Hudson IT boasts a knowledgeable and experienced team of recruitment specialists with substantial exposure to the dynamic and rapidly-changing IT arena.

Most executives cite the availability and cost of talent as major issues; we therefore see our role in the war for talent as highly significant.

## OUR SERVICES

Hudson IT recruits with quality at the forefront of its resourcing methodology. Our focus is excellence rather than volume and we aim to work as a valued partner with a full appreciation of your business.

We specialise in the major skill sectors within the mid to senior arena and our consultants are experts dedicated solely to these areas. We do not attempt to cover every aspect of a vast and complex business therefore our advice is always based upon current in-depth market knowledge.

We supply the following roles throughout the management, support & development lifecycles:

### **Business IT**

- Programme & Project Management
- IT Management
- Business Analysis
- Quality Assurance/Software Testing
- Technical Authorship
- Project Support

### **IT Infrastructure**

- Support Management
- Operations Management (incorporating Ops Support & Ops Analysis)
- Systems/Database/Network Administration
- Configuration Management
- Security Administration and Management
- Service Delivery Management

*From great people to great performance<sup>SM</sup>*

## **Software Development**

- Front-End Applications
- Enterprise Application Integration (Middleware)
- Database/Datawarehouse Development
- ERP/CRM
- Product Development
- Software Engineering

## **WHAT MAKES US LEADERS?**

### **Partnership**

At Hudson we don't try to work with everybody. We develop meaningful business relationships and in this way our knowledge of your culture, ethos and practices enables us to add value to the recruitment process.

### **Quality**

As an ISO and IIP-accredited business we understand the need for and the benefits of quality. We ensure that our own processes are at the highest level so we are able to deliver consistently and mirror our client's commitment to quality.

### **Global Reach Local Delivery**

IT is now a truly global phenomenon and many of our clients are either global players or supply global businesses. For companies looking to grow, where to compete can be just as important as how. As well as 9 regional offices in the UK Hudson IT has a presence in more than 20 countries worldwide, giving us access to candidates and companies all over the globe.

### **Knowledge**

Few industries have experienced greater cycles of change in recent times than IT. Our work is always conducted with this in mind and with a full comprehension of the latest industry trends.

### **Consultative Approach with Business Appreciation**

Building long-term business relationships is the key to successful recruitment. We've built our knowledge from 25 years of listening, understanding and developing recruitment processes to best suit our clients' needs.
