*Hudson's
Public Sector
IT Team –
Committed to
Service and
Best Value*

ABOUT US

Hudson's Public Sector and Not-for-Profit IT practice has a wealth of experience delivering IT specialists at all levels from University Graduate to Senior Executive Director.

All our Consultants operate within a "best practice framework" with desktop access to an online resource tool kit, materials and methodologies to ensure high standards of service delivery. Each specialist team contains experienced consultants that have developed knowledge by working specifically in the following areas:

- Agencies & Quangos
- Central Government
- Charities / Not for Profit
- Defence
- Local Government
- Health
- Education
- Police, Emergency Services, Criminal Justice

This structure enables us to demonstrate a superior understanding of your needs. The wealth of knowledge and experience combined ensure the effective provision of the best candidates in the market.

At Hudson we understand the security needs for specific sites and can source candidates with existing security clearance. We appreciate the needs of hiring for the Public Sector, and your requirements as an Equal Opportunities Employer. We can advise on advertising to required diversity standards, even handling advertising and response management on your behalf if desired. Our processes include the capture and feedback of Equal Opportunities data.

- Business Process Re-engineering
- Development
- Testing
- Training
- Business Analysis
- Technical Design / Architecture
- Rollout
- Support
- Benefits Realisation

WHAT MAKES US LEADERS

Knowledge

Hudson's IT Public Sector team is one of the most established in the market. Our consultants exclusively supply the public sector and understand the issues our clients face. We take an active role in engaging with government on key issues. Our free seminars on topics such as Freedom of Information and Data Protection have been very well received and have included senior speakers from the Department of Constitutional Affairs and The Information Commissioners Office. Hudson's ongoing research includes salary surveys, which provide comprehensive information on both the interim and permanent IT candidate market.

Best Value

Interim solutions: We have a proven track record of delivering under competitive conditions, including the Catalist framework agreements. By using our services, clients have realised substantial savings compared with solution providers who 'body-shop', resulting in improved choice, flexibility and control during the contract.

Permanent recruitment: Hudson's comprehensive modular IT resourcing solutions can be tailored to our clients needs at every stage of the recruitment process. Working exclusively in this market, we go beyond the act of recruitment and guide our clients on skills trends, career planning, market nuances and business risks.

Candidate Attraction

Our Public Sector IT team have an established reputation within the candidate market built on integrity, professionalism and a high standard of candidate management. By investing time in our candidate network, we can respond quickly and accurately to our clients' needs.

Security Clearance

We maintain an up-to-date database of pre-qualified security cleared IT specialists, including details of clearance level, holding department and expiry dates. This pre-qualified skills pool enables a fast response to your most urgent needs.
